

At Lindex, we want you to **feel good every day** about the clothes you wear and the styles and trends that **inspire you**.

It matters to us that our clothes are **made well, fit perfectly and are affordable**.

We love fashion that is made **responsibly**, so when our products are made by people who are treated fairly, **we feel good**.

Women play a big role in keeping our business moving so we are dedicated to **empowering each other** in any way we can.

This is why we're committed to a number of great causes that work with **women around the world**.

We're **devoted to sustainability** and know that it is important for all of our futures. We're committed to making **80% of our clothes from sustainable sources by 2020**, and when we reach 80% we'll try for 90%.

**Small steps, but we hope significant ones.**

**We all feel good in clothes that are made just that little bit better**, and better quality products at affordable prices means you get the **very best possible value**.

At Lindex we're far from perfect, but we're also far from finished, and **we hope you can feel the difference**.
